FOR IMMEDIATE RELEASE

SRS Creates New Rx Laser Label for Tri State Distribution's 3-Sided Tri Maxx® Prescription Vial

Caro, MI (January 1, 2010) – SRS Pharmacy Systems today announced that it has created a new Rx laser label for users of its PKonRx Pharmacy Management software who will be using Tri State Distribution's revolutionary new 3-sided prescription vial, Tri Maxx®.

According to Tri State Distribution, Tri Maxx® is the most innovative system to be introduced to the pharmaceutical market since Congress mandated the use of child resistant caps in 1972. The unique patented triangular shape of the Tri Maxx® vial provides more space for dosage and refill information and the flat panel design allows the customer read the instructions without having to rotate the bottle. A larger font size can be used that is also easier to read.

Highlights of the Tri Maxx® vial include:

- Triangular shape makes the vial easier to hold and more stable
- 30 percent more space for imprinting messages provided by third panel
- Larger print size is easier to read and more FDA compliant
- Customizable third-panel used for in-store promotions or national brand coupons
- 360° marketing assistance provided through Tri State's QTrak™ program
- All three bottle sizes — 75cc, 120cc and 200cc — use the same caps
- Two-component, one cap C/R system for all bottle sizes reduces inventory
- Seven SKU C/R and non-C/R system frees up bin space and streamlines filling
- Larger size prevents dispensing one prescription in multiple bottles

For additional information on the Tri Maxx® vial, contact Tri State Distribution at 1.800.392.9824 or on the web at www.provial.com.

About SRS Pharmacy Systems

An integrated Pharmacy Management software and systems provider servicing customers throughout the United States, SRS develops solutions that encompass the needs of retail pharmacy. Key modules include e-prescribing, POS w/IIAS, electronic signature capture, HIPAA, IVR, internet refills, EDI inventory, Visa/MC/debit/credit card processing, MARs, A/R, and thermal/laser printing. Services include web security, off-site backup, EFT payroll, health insurance, facility insurance and retirement benefits. SRS internally develops, supports and services all hardware, systems and software, allowing pharmacies to focus on their primary business while SRS manages their IT functions. SRS customers have just one phone number to call for their pharmacy, business, and IT needs. One System, One Vendor, One Call.
